

## WELCOME

We would like to thank you for having purchased Suberhide™ leather goods from JORD.

The collection was created for you in the heart of Saint Louis by Jord's experienced design team. Each handbag is unique and have been crafted with the finest materials.

## MATERIAL

### CORK-INFUSED VEGAN LEATHER

Suberhide™ is the world's most durable luxury fabric steeped in natural Portuguese cork. The discernable feel of rich leather and subtle texture bears no resemblance to the cork stopper on your bottle of pino grigio. It is soft, textured, and extremely tough. The propriety process of fusing a polymeric layer over agglomerated cork transforms a natural material into a tough yet adaptable textile fiber: a vegan leather that you must experience to appreciate.

Sustainable from harvest to handbag, Suberhide™ has changed vegan luxury forever.

## PRODUCT CARE

To keep your Suberhide™ leather goods looking great for as long as possible, we recommend you to take the precautions below.

### WEAR

Prolong material life by avoiding exposure to adverse/extreme weather conditions.

Avoid extended contact between light and dark colored objects to minimize risk of color migration.

Avoid contact with cosmetics, oil, perfume and any other chemical substances.

Metal hardware will develop patina over time.

Do not overload to ensure bag keeps its lovely shape over time.

### CARE

With a soft cloth towel, soak in warm water and gently scrub areas in need of care.

Avoid detergents and scrub with hand soap if necessary.

Air dry in a well ventilated space once cleaned.

### STORE

When not in use, keep your handbag in the included dust bag, in an upright position.

To maintain shape, stuff the bag with acid-free tissue paper without overstuffing.

Keep your handbag in cool, dry place away from direct sunlight.
